Thanks for the update, Calvin.

Hope you have a nice weekend!

Best regards,
Natalie

Hi Natalie,

We are checking with our regional counsels on this issue and will get back to you when we hear back from them.

Best regards,
Calvin

Dear David and Calvin,

Hope you are doing well.

We are hoping you could provide some clarity on a question that has arisen with respect to the ESA and NHPA requirements.

We are currently ascertaining the parameters of the 3D seismic that will be conducted for the Class VI Permitting application. My understanding is that the required land area for this survey (10 – 18 square miles) will be substantially larger than the AoR itself (2.5 square miles). For the purposes of the ESA and NHPA review, does the analysis need to be performed only on the AoR, or does it need to extend to the property that will be included in the 3D seismic?

A variety of permits will be required to be obtained from various government agencies (city, county, state & federal), which likely will require some form of environmental analysis and other pertinent reviews. We understand that the EPA is not involved in the 3-D seismic permitting process; however, since the data from 3D seismic is required as part of the permitting process, it is an incidental action to the Class VI Permit.

Your advice and guidance on this issue would be very much appreciated.

Best regards,
Natalie

Hi Rebecca, just to clarify, we are not intending to go over our letter in today's call. The call was requested by Natalie to discuss status and process of our application review and we just happened to get this letter out today. Hope that helps. David

Thank you, Calvin. Received.
I will review as much as possible before our call.

Best Regards,
-Rebecca

Subject: EPA Site Characterization Evaluation of CES Class VI Permit Application

Hi Rebecca,

We will upload the attached EPA site characterization evaluation of CES Class VI permit application to the GSDT at a later time, but are providing you a copy of the document for our call today.

Regards,

Calvin
